Sheriff - Coroner

To: Lassen County Board of Supervisors

From: John McGarva, Sheriff-Coroner

John #101

Subject: Radio Console Upgrade

Agenda Date: April 8, 2025

SUBJECT: The Sheriff's Office is seeking approval to purchase equipment to upgrade the radio console in the Lassen County Dispatch Center.

DISCUSSION

The Dispatch Center relies heavily upon the radio equipment and software to ensure officer and community safety. Part of this system that is vital to the continued reliability and security is the Radio Console. This consists of multiple computers, headsets, monitors, and speakers. This console allows for dispatchers to interact and simplify their dispatching capabilities ensuring swift communications for incidents and responding units.

The system that will be replaced has been in operation since 2017 working non-stop to ensure that county remains safe and the Sheriff's Office is able to accomplish its mission. After 8 years of continuously running the reliability of the system is beginning to decrease and has reached the end of its useful life. This could lead to possible life altering consequences for county citizens if this system were to fail. The Sheriff's Office would not be able to answer calls for service or have dispatch capabilities causing public safety and officer safety concerns for all residents we serve. As the Public Safety Area Provider, we are required to maintain operability.

The Sheriff's Office is including the installation and upgrade of a fourth workstation in the Dispatch Center. This will improve efficiency and give others the opportunity to complete work and/or training while having the ability to assist the other dispatchers with calls for service or responding to radio traffic.

FISCAL IMPACT

This purchase will be paid out of the Budget Unit 130-0523 in the amount of \$125,000.

RECOMMENDATION

1). Approve the purchase from Sierra Electronics Not to Exceed \$125,000 2) or provide direction to staff
